# THE VICKSBURG TROUPLES.

Statement of the Origin of the State Difficulties.

Frand and Corruption on the Part of Radical Officials-The Attack on the City-An Appeal to the Country.

VICKSBURG, Miss., Dec. 12, 1874.

A large bedy of citizens to-day set forth a Statement of the origin of the late difficulties. The statement is signed by B. G. Rum-phreys, ex-Governor: John A. Klein, President of the Mississippi Valley Bank; B. R. Thomas, President of the Vicksburg Bank; G. Gordon, Adams Express; the United States District Attorney and United States Commissioner; Charles E. Furiong, republican State Senator; John B. Beard, Frederick Speed, John D. Finney, an ex-United States Army officet; C. K. Marshall, D. D. Bow-man and Messrs. Miller, McCardle, Cowan, Baum, Cathings and other prominent citizens.

After recounting that the Warren county offi

cials in 1873 were nearly all negroes, the statement shows that T. W. Cordoza, Circuit Clerk, was elected State Superintendent of Education, and Covernor Ames thereupon, contrary to explicit law and the State constitution, appointed A. W. Dorsey his successor in August, 1874. Upon amedavit of the State Auditor of Public Accounts, Dorsey was arrested for issuing saise and forged certificates. He was committed to jail, and resigned. Again the vacancy was filled by appointment by Gover-nor Ames contrary to law, and the appointee still olds possession of the office. The investigation anto Dorsey's frauds discovered Cordeza to be suilty of similar offences.

George W. Davenport, a negro, was elected Chancery Clerk, and was sole custodian of the county seal and the public records. It being diswere in circulation Davenport was repeatedly called upon to make a report to the Board of Sujused a committee of taxpayers permission to examine the records, and it may be added here that after his flight it was discovered that he had no bond whatever on record. At the October term of the Circuit Court Dorsey, Davemport and Cardoza were ladicted by the Grand Jury, composed of ten blacks and seven whites. During the mourry into the offence the books of the County evidence of the guilt of the parties were stolen. Other records, used in the investigation, put in charge of Sheriff crosby, were also stolen. The Sheriff is also Tax Collector and required to give bond in \$700,000. He gave a worthless bond, when its worthiesaness was known several his sureties withdrew, thus making the instrument lilegal. The Supervisors' attorney (republican) declared the bond illegal; but the Board refused to order a new one. It was generally understood that the Board acted officials who were interested in keeping him in office. In November the Sheriff published a card calling on the taxpayers to pay up, and saying he would hold the Sheriff's office until ousted by the THE CONDITION OF APPAIRS:

Taxes amounting to five per cent of values were due; the Sheriff, to whom the taxes were payable, was insolvent and bondless; the Board of Supervisors, though importuned to do so, had failed to visors, though importuned to do so, had falled to take the measures required by law for the protection of the people; valuable public records and papers, necessary as evidence to convict Cardoza, Davenport and borsey on the indictment found against them, had been stolen from the Court House, of which the Sheriff is by law the keeper. Sheriff Crosby was known to be an intimate personal and political friend of those criminats, and besides being charged with the important duty of summoning the juries by whom they should be tried, was the custodian of records, jurnishing evidence of their guilt, and had tailed to protect the same from larceny and apollation; and, to all appearances, these officials seemed banded together for mutual protection, and, in strength of numbers and mutual countenance, were defying the laws of the State and prostituting their offices to their private ends. In this condition of affairs the taxpayers had a meeting and, as already known, demanded the resignation of the officials. Trosby resigned and the others fled. Crosby then went to Jackson to consult Governor Ames, and Ames Issued a proclamation commanding the taxpayers to disperse. Contemporateous: with Ames' proclamation a card, signed "Peter Crosby," was circulated among the colored people, denouncing the white as ruffians and barbarians, and calling on his irrects to come to the aid of the Sheriff and support him. On the same day Governor Ames, the Adutant General and alide arrived in vicksburg, and about the same time Hall, the captain of a negro company of minitis, received orders to hold himself in readiness for orders, which orders were sent direct to Hall and not through his superior officers. On sunday, the taxpayers, contemplating no violent heasures themselves and ignorant of any contemplated by Crosby and confederates, presented to Chancellor Hill, A. J. Packer, sovernor Ames, and confederates, presented to Chancellor Hill, A. J. Packer, flovernor Ames, the desiration of the county would be shed, with Chancellor Hill, A. J. P take the measures required by law for the protection of the people; valuable public rec-

sens present to send out orders to them that might to return to their homes, as if such attempt yourself on a bound be shed. Crosty and the property of the control of the

### THE PEACEFUL INDIANS.

Commissioners in Council With Five Nations-Resolutions Adopted By the Indians-Their Grievances Enumerated-Eloquent Speeches By the

MUSCOGER, I. T., Dec. 12 1874. The Indian Peace Commissioners met the In-tians in council again to-day, and the following preamble and resolutions were presented by the

preamble and resolutions were presented by the delegates:—

Whereas, certain questions have been propounded to the Five Nations assembled in council through their delegates by General C B. Fisk, J. D. Lang, R. R. Roberts and C G. Hammond, members of the Board of Indian Commissioners, seeking to ascertain the sense of said nations as to the propriety of additional legislation by Congress for the better protection of their rights and better maintenance of peace within their border; therefore, in answer to said inquiry, as it is a second of the second of their border; therefore, in answer to said inquiry, as it council assembled. Its, this of their people, desiring to express their gratitude at meeting the distinguished manbers of the Board of Indian Commissioner, exponently and interest in behalf of the President of the United States for his benigh Indian policy, and their graitinds for his seasy adherence to the same.

\*\*Print—We respectfully ask of Congress, as the authorized representatives of the People, that they will respect, reaffirm and athere to the stipulations of our treaties with the United States and only ask that they will respect, reaffirm and athere to the singulations of our treaties with the United States and only ask that they lead to a characteristic of the president of the print of the president of the president of the president of the presid

the United States, which threaten the infraction of the rights guaranteed to them, and which deskeps them unsettled as to their future, and which entails upon them large and ruinous expense in the defence of the interests of the dive pations.

The resolutions were signed by thirty-three delegates. A full and free discussion of the resolutions, participated in by delegates from each of the nations and by the Commissioners, was continued until five P. M., when the council was closed. Some of the speeches made by the Indian delegates would have been listened to with attention on the floor of Congress, for the ability and eloquence displayed in presenting their views to the Commissioners.

Colonel E. C. Bondinot announced that there was a large number of Cherokees who were not willing to admit that the delegation presenting the resolutions represented them, and asked that a paper signed by himself and others be read. Mr. S. S. Stevens then read the paper which was signed by Messra. Stevens, P. Harris, Charles E. Water, E. C. Boudinot, J. M. Bell and others in which they ask that Congress shall shall legislate for the Indian Territory so as to secure—first, United States courts in the Indian Territory; second, a general Legislature for the Territory; third, a Delegate in Congress.

Colonel Boudinot showed that these three propositions were especially provided for by all the treaties of 1866, and declared that he and his friends would be content it Congress would legislate upon these subjects. He stated that for himself he was willing to go much further, but had presented that plan so that all the nations might adopt it and all dissension might be healed.

Eloquent speeches were made by Captain Benge and Colonel William P. Ross, of the Cherokees, General Porter, of the Creeks, and others, all of whom admitted that they were willing to accept all three of the propositions advocated by Colonel Boudinot, and it seems to be the opinion of the Commissioners that the and his captain and the search of the massioners, which

## MURDER BY AN INDIAN.

MUSEOGEE, Dec. 12, 1874. Indian named Napoleon Urzery, who shot and instancy killed another Cherokee named Thomas M. Combs. Urzery escaped, but Major Ingalis, Indian Agent, assisted by Colonel Ross, chief of the Cherokees, are making every effort to capture him.

## THE BLACK HILLS.

CHICAGO, Ill., Dec. 12, 1874. Lientenane General Sheridan, in an interview to-day, expressed his utter disbellef in the stories presence of prospecting parties of miners in the Biack Hills country. All the advices received by the General from the commanders of the military posts on the borders of the Black Hills country go to show that no white men have penetrated that region since General Custer's expedition of last summer.

## A CANARD DENIED.

Спісадо, ІП., Dec. 12, 1874. A card will be published in the city papers tomorrow from Mr. Potter Palmer, denouncing as false in general and in every paras iaise in general and in every par-ticular the reports recently published here and reproduced in New York and elsewhere, con-cerning his lamily affairs, and involving his father-in-law. H. H. Honoré, and his brother-in-law, Colonel Fred D. Grant.

Saminy Ford, S L Russell, Allie B Dyer, I Benedict, Delia Hodgkina, E L Leonard, Lucie M Jenkins and Ussteamer Grant.

## MISCELLANEOUS.

PURE AIR, PURE BLOOD.

The more pure the air we breathe the more surely does it take out the refuse from the bowels and the circulation. Thus the blood and the body are made sound. There are elevated portions of our country where the air is so pure and so rich in mysterious gone that medicine is little needed in those favored regions. No health can exist but by the absence of impurities from the body. All the tonics, all the blood remedies, in fact every kind of physic, is only valuable according as it lakes out the morbid and retuse materials from the bowels and circulation. BRANDRETH'S PILLS secure these indications; the use by the world for

ONE HUNDRED AND TWENTY-POUR YEARS has established this character beyond all doubt. Their reputation is still growing. This great physic never infraterent the most delicate; simply removes impediments to hearthee use groundy adapted to Duarrhoes and Coastreeness. In this one case removing sources of irritation and in the other assisting mature's expulsive elements. Costiveness. He has one caspremoving sources of irritation and in the other assisting mature's expulsive elforts.

Usually we have more to fear from disease generated in our own body than from all the sewers or dirty streets in the world. In Diptheria, Smallpox, Scarlet Fever, Cholera and Yellow Fever the effects produced by BRAN. DRETH'S PILLS seem to establish that pursing with them, in these diseases, immediately induce a healthy disposition of body, and recoveries often take place which, under the old medical treatment, would keep the patient in bed for weeks, if not kill him outright.

But Diptheria, Cholera, Yellow Fever, and even in most fevers and blood diseases, I am satisfied they mustly proceed from a vegetable tungus; in one case depositing o a the throat, and in the others upon the organs of the stomach and bowels. BRANDRETH'S PILLS usually in the stomach and bowels. BRANDRETH'S PILLS usually in the stomach and bowels. BRANDRETH'S PILLS usually in stop the fungus yrowth.

Some persons have administered this medicine to their cattle and poultry when they have been affected with choleraic symptoms, which affect man edicate the three cattle and poultry when they have been affected with choleraic symptoms, which affect man edicate in the losses they have lost none. Their use removes trugss from the surface of the bowels and the interior organs, as well as any poisonous or morbid matters in the blood, and cleanses the body very effectually. They do more, they give off a vapor which permeates every fibre of the body, and which for a long time acts as a preventive against infection.

Yet this wonderful physic is composed of simple herbs and essences, whose use prevents measurably the inroad of time and disease upon the constitution. General for and constitution of the part of the body, and sease them for forty-four years; Natheniel Hyatt for guest them for over seventy years, and lived to foll years, and lived to foll years, and her move the product of the party of the party of the party of the party of t

that as a family medicine, they are unrivalled. I have used them for colds, courbs, rheumatism, indigestion and neuralizia, with wonderful results, while the children and females of my family, in all their complaints, have found Bikandretti's Pilles invaluable. I cheerfully give my testimony in their favor, for time has fully tested their merits. Yours truly, STEPHEN AYLES, Also of the village of Sing Sing.

WHAT BRANDRETH'S PILLS ARE DOING. CURE OF GASTRIO VEBTIGO.

Dr. Branderth:—

Dr. Br

ne has given you, and more especially for such a remeily as Brandreth's Fills. Believe me, dear sir, yours very truly.

I ASK ESPECIAL ATTENTION TO THIS.

Let us inquire how a state of sickness comes to exist. Because the natural powers of the body have not enough strength to get rid of decayed or waste portions of used up body. For instance, we have a cold: the pores are said to be closed; there is checked respiration; we have chills; the matters which should have passed by the pores are thrown back upon blood; the blood immediately causes these matters to be returned to the bowels, which, if a roused to activity, all soon becomes well. Should, however, costiveness prevail at such times, then affairs become serious, for these terrible impurities are axam reabsorbed into the blood, and must be at once removed by appropriate means, or FEVER, ERYSIPELAS, COUGHS, PLEURISIES, SCARLET, EYER, SMALLPOX, and a host of evils consequent upon a bad state of the blood, are sure to exist. COSTIVENESS alone may be the cause of similar evils, because reabsorption takes place into the blood from the bowels. This cause is the most rerule of all others in giving rise to blood diseases. By the administration of BRANDRETH'S FILLS these diseases have speedily been removed. Besides, these Pills are strictly anti-spasmodic. I have often known complete relief to be obtained before the medicine had operated. In fact, the patients thought optum had been a part of the Pills. We must not regulate their use by weight and measure, but by effect. Here is shown the importance in possessing a medicine that may be used all bittum to procure action on the bowels. The directions from "two to twenty" on Brandreth's pill box has more significance than was ortginally supposed it possessed.

If you wish the advice of a physician secure the ser-
